

HSA Tax Form Tips

Tax reporting is required for Health Savings Account (HSA) distributions and contributions. If you signed up for electronic delivery, your tax forms will be available on the Member Website and you will not receive a paper tax document in the mail.

IRS Form 1099-SA (Distributions)

You should have received this form if you had distributions from your HSA. It can be found on the Member Website Resources page. If you did not have distribution activity during the year, you will not receive an IRS Form 1099-SA.

IRS Form 5498-SA (Contributions)

This form provides you with all the contributions made to your HSA in a given year. The 5498-SA will be available after tax filing, allowing any contributions made after January 1 for the previous year to be included. If you did not have contribution activity during the year or a balance (Fair Market Value) as of December 31, you will not receive an IRS Form 5498-SA. Please note this form is informational only and does not need to be filed with your income tax return.
